1. Write number bonds. Partition the fraction strip to show the unit fractions of the number bond. Use the fraction strip to help you label the unit fractions on the number line. Include 0 unit fractions.

- Halves
  - 1
  - \(\frac{1}{2}\)

- Thirds
  - 1
  - \(\frac{1}{3}\)

- Fourths
  - 1
  - \(\frac{1}{4}\)

- Fifths
  - 1
  - \(\frac{1}{5}\)
2. Trevor needs to let his puppy outside every quarter (1 fourth) hour to potty train him. Draw and label a number line from 0 hours to 1 hour to show every 1 fourth hour, include 0 fourths and 4 fourths hour. Label 0 hours and 1 hour, too.

![Number line with labels: 0, 1/4, 1/2, 3/4, 1 hr.]

3. A ribbon is one meter long. Mrs. Lee wants to sew a bead every 1/5 m. The first bead is at 1/5 m. The last bead is at 1 m. Draw and label a number line from 0 m to 1 m to show where Mrs. Lee will sew in a bead. Label all the fractions including 0 fifths and 5 fifths. Label 0 meters and 1 meter, too.

![Number line with labels: 0, 1, 2, 3, 4, 5/5]
