Lesson 3 Homework

Name ____________________________________________ Date __________________

1. Each shape is a whole divided into equal parts. Name the fractional unit and then count and tell how many of those units are shaded. The first one is done for you.

![Image of a shape divided into parts with one unit shaded]

The unit is 1 fourth. ____________________________________________ ____________________________________________ ____________________________________________

2 fourths are shaded. ____________________________________________ ____________________________________________ ____________________________________________

2. Each shape is 1 whole. Estimate to divide each into equal parts. Divide each whole using a different fractional unit. Write the name of the fractional unit on the line below the shape.
